

REDUCE & CONSERVE WATER NOW!

Due to a technical 'water-level-monitoring' glitch, water levels in the NPA are actually lower than recorded. Please reduce your usage and conserve water immediately. Trility and NPARC are working as quickly as possible to resolve this issue. Check regularly for updates.

Be Water Wise and practice these tips:

DO:

- ✓ Take shorter showers
- ✓ Turn off taps
- ✓ Fix leaking taps

DON'T:

- ✗ Use sprinklers
- ✗ Use hand-held hoses
- ✗ Wash your car
- ✗ Wash your boat
- ✗ Hose-down driveway
- ✗ Fill up your pool

NPARC & Trility thank you for your co-operation.
