

Message to Northern Peninsula Area Regional Council Community – Education

The staggered re-entry of students will commence next week and the 18 teachers in isolation will not be in classrooms and will remain in isolation until 18th May as per their agreed plan.

Northern Peninsula Area State College principal Leanne Fox will work with the Heads of Campus to initiate a plan for the Kindy, Prep and Year 1 students to return.

The plan is to also offer a program for year 11 & 12 students but as most of the specialist teachers who teach in the senior school are in isolation there will have to be some modifications.
