# Defence Force Exercises

Hello, as many of you are aware an ADF contingent from the Lavarack Army Barracks is travelling to Bamaga for exercises.

We wish to assure the community that they have all undertaken the bio security requirements before entering NPA.

Every so often the ADF has to undertake these exercises to ensure that their people and equipment is operational. COVID-19 has made that more difficult this year but it is something that still has to be done. They need to check on their equipment at Camp Charlie and check out the airport. There is nothing sinister in this.

They will be here from June to the end of September and will cause as little disruption to the community as possible. Please make them feel welcome.

Thankyou

Graeme Gillam

CEO NPARC
