Activities were based on the beach front, activities included Photo display of the first settlement, Arts/Crafts stalls, Coconut Husking, Traditional games - Water games and Kulap throwing.

A highlight and memorial moment had taken part when 'Last Pioneer and Elder' for the Seisia Community - Dorris Sunai presented a shrub from a coconut tree to her Great Grandson Rykia Sunai Kris to plant, this moment was a wistful moment as the two (2) planted the tree together. This event was followed by a special interview by NITV. Lunch and Supper was prepared and served at the Seisia Fishing Club. The day ended with a 15 minute Firework show. *"Special thank you to MC Rose, Seisia Kayin Thithuyil and Naygayiw Gigi who performed Cultural Dancing between activities. NPA Community Options Project

Enjoying living at home with support from our services

The Aged Care Staff are UME MOB here to support Ume elders live in our community with family if you need help.

The Aged Care service will not do things which family can still help with or activities that clients can do for themselves. We will include you in activities that keep your body and brain active which is good for your health.

Have your say in your care

You can have your say in what services you receive and who provides the care in your Home Care Package.

You can decide how much you want to be involved in managing your care package.

Every month you will get a financial statement telling you how much money your home care service cost.

Your agreements

Each client is asked to sign a client agreement when they start with the service. Your agreement states:

- your services the client will receive
- your rights, your responsibilities and cost
- responsibilities of the Age Care Service
- other services

What your Aged Care Service do?

The Aged Care Program helps elders and in our community who need support. It also provides support to our older people who need more care to keep them at home here in the NPA so they do not have to go away to a nursing home on Thursday Island or down south.

Who can use the service?

Frail Aboriginal and Torres Strait Islander people who are over 50 are eligible to use the service.

How do I get the service?

Talk to your MOB at your Aged Care Service to get started on your service through My Aged Care.

Ume Elderly can get help for aged care service by a doctor, your family, the Community Options Project or any other community based service.

Aged Care programs

You can get Commonwealth Home Support Program (CHSP) if you need just a little bit of help to keep living in the community on you own. More frail elders can get more services through the Home Care Program (HCP), but they need to be assessed by the Aged Care Assessment Team (ACAT) first.

Your Care plans

Each client has a care plan developed that describes what services will be delivered to them and how often services are provided.

The care plan will be reviewed regularly depending on how much care people need. If clients go into hospital or have a change in health or social support, the care plan must be reviewed. We will ask permission to share any information about clients with the Clinic or with anyone else. A copy of the care plan is given to each client.

Costs for Aged Care

The Australian Government has a policy of charging for aged care services. The following charges will apply:

- \$5.00 for each meal provided
- Daily fee of 17.5 % of the single basic Age Pension for Home Care Services Home Care Package.

Money is paid to the service by Direct Centreline deduction.
